CAREER OBJECTIVE

I worked as an elementary and middle-school classroom teacher for 11 years while resident in South Korea. I moved to Prince of Wales Island in 2018 to help care for my uncle. I hope to work in education, so I will be pursuing teacher certification, long term, but I also have a portfolio of other experience in computer programming, database analysis and design, and business systems analysis. I currently seek positions, part-time or full-time, that allow me to stay local.

CORE COMPETENCIES

- Experienced Classroom Teaching
- Curriculum Design
- Project Management
- Systems Analysis

EXPERIENCE AND WORK HISTORY

Karma Language Academy (카르마 언어학원), Goyang City, South Korea

Classroom EFL Instructor, May 2011 – July 2018

- Taught wide range of students and levels, from 1st grade through 9th grade.
- Was chief TOEFL curriculum designer and instructor, including intensive test prep and practice
- Designed and deployed an in-school competitive debate and speech program for advanced students
- Designed and deployed an innovative "Korean history in English" curriculum for advanced students

Hongnong Public Elementary School (홍농초등학교), Yeonggwang County, South Korea

Classroom EFL Instructor, April 2010 – April 2011

- Taught EFL as co-teacher in classroom to Kindergarten through 6th grade students in a rural public school
- Designed and deployed an after-school enrichment program for 3rd through 6th grades, including drama and arts

L-Bridge English Academy (엘브리지 영언어학원), Goyang City, South Korea

Classroom EFL Instructor, September 2007 – September 2009

- Taught advanced EFL to 3rd through 6th grade students
- Designed and published in-house curricular materials to support TOEFL-style speaking and writing

Self-Employed IT Consultant, Minneapolis, Minnesota

Business Systems Analyst, June 2006 – September 2007

- Supported database reporting systems migration to up-to-date platforms for IT customers

HealthSmart Pacific, Inc., Long Beach, California

Business Systems Analyst and Database Administrator, May 2005 – June 2006

- Administered several types of legacy and development database systems
- Participated in a team that developed and deployed an in-house, intranet-based pharmacy billing system
- Designed and deployed data transfer routines to support migration from legacy (COBOL) to data warehouse

ARAMARK Uniform Services, Burbank, California

Various positions ending as Data Analyst, June 1999 – February 2005

- Designed and deployed an in-house data warehouse reporting system to support marketing and national accounts
- Prototyped customized electronic billing solutions for important national customers (\$1m+ accounts)
- Supported marketing and national accounts with *ad hoc* database reporting and database domain knowledge
